LOVE, Mikayla

I have lived in Busselton for 18 years, and have attended all my schooling locally. What I lack in political experience, I make up for in motivation, ambition and determination.

I will bring a fresh perspective to the council and be a voice for the younger demographic of the Busselton and Dunsborough community. I would like to see Busselton establish a mentoring program to help build and enhance Busselton and Dunsborough's youth's sense of motivation and self-belief, with a real focus on the at-risk youth. Recently our community has built momentum in the provision of mental health support and prevention tools, however I feel we could continue to expand in this direction, as this is an issue that everyone is affected by. We should also implement a more inclusive waste collection service.
