## **RYAN, Anne**

I am a longstanding resident, a Rotarian, have a Diploma of Aviation, a former business owner, currently working part-time and have the time, passion, and drive to be able to represent you.

The importance of working hard to deliver community projects that are financially sound and keep the City in a strong financial position, cannot be underestimated. Elected members listening to the ratepayers and residents is, I believe, vital for our vibrant regional City.

There are many worthy projects desperately in need of council's focus, deserving of funding and consideration. We need consistent good decisions that ratepayers can embrace.

I ask for your vote to restore good financial management and governance in representing the electors, ratepayers, and residents of the district. Make the change.
